Faith-Based Online Training for Everyone in Your Organization

Safe Gatherings is a comprehensive protection system for everyone who works with children, youth and vulnerable adults. We work with more than 5,000 churches and organizations across the country—and counting.

We make it easy, and it's all online.

Safe Gatherings approval means knowing your staff and volunteers have been thoroughly screened and trained.

When those working with vulnerable populations are trained to keep their eyes and ears open, recognize the signs of abuse and report responsibly, they are better equipped to work together to prevent abuse.

Safe Gatherings serves congregations of all faiths and sizes, community and faith-based organizations, and schools. Contact us today to learn how we can help start or strengthen your protection program.
